RE: Tariff Update

Dear Mr. Kirtley:

During our most recent inspection by the Public Service Commission, it was recommended by Jimmy Adcock that our tariff be updated to include the free use of water by fire departments. Enclosed is a tariff sheet which addresses the use of water by fire departments. Please add this sheet to the tariff which is on file for East Laurel Water District.

Please let me know if you have any questions or if you need additional information (606) 877-9414.

Thank you very much,

Dewayne Lewis  
East Laurel Water District
